("the Company") as at 30 June 2026, comprising of the interim statement of financial position as at 30 June 2026 and the related interim statement of profit or loss and other comprehensive income for the three and six-month periods then ended and the related interim statements of cash flows and changes in equity for the six-month period then ended and explanatory notes. ### ***Scope of review***

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### ***Conclusion***

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

### 13 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

#### **Fair value of financial instruments**

Financial instruments of the Company comprise of financial assets and financial liabilities.

Financial assets consist of investment securities, trade and other receivables and bank balances and cash. Financial liabilities consist of trade and other payables.

**13 FAIR VALUE MEASUREMENT (continued)****Fair value of financial instruments (continued)**

The fair value of financial instruments are estimated based on the following methods and assumptions:

- a) Bank balances and cash, trade and other receivables and trade and other payables approximate their carrying amounts largely due to the short-term maturities of these instruments; and
- b) The fair values of the quoted investments are determined by reference to published price quotations in an active market and the fair values of unquoted equity investments have been estimated using other appropriate valuation techniques including the use of market multiples and net assets value.

**Fair value of non-financial assets and liabilities**

The Company measures its free hold land at revalued amounts and accordingly, the fair value has been categorised as level 3 in the fair value hierarchy disclosed below.

**Fair value hierarchy**

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the interim condensed financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There were no changes in the Company's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period.

The following table provides fair value hierarchy of the Company's assets and liabilities:

|                                                                       |                   | 30 June 2026 (Reviewed)                    |                                          |                                            |            |

### 15 IMPACT OF RECENT GEO-POLITICAL EVENTS

The geopolitical situation in Middle East has intensified since 28 February 2026. The situation continues to evolve and has had impacts in several countries across the Middle East including Kingdom of Bahrain, causing disruption to business and economic activities including effects on hotel industry. This has brought about additional uncertainties in the economic environment. During this period, the hotel building suffered minor damage from projectile resulting in a temporary disruption of operations. Management has made an initial assessment of the damage and concluded that the impact is not material to the interim condensed financial statements.

Management has evaluated the potential impacts on the Company's financial position, operations and cash flows, including inflationary pressures, reduced occupancy levels, elevated energy costs, and supply chain disruptions. As at the date of approval of these interim condensed financial statements, the ceasefire agreement had ended, and geopolitical tensions in the region had escalated. Despite the renewed uncertainty, management is of the view that the Company maintains adequate liquidity and financial resources to meet its obligations and continue as a going concern. Management will continue to closely monitor developments in the geopolitical environment and assess their potential implications on asset valuations, operations, and the overall performance of the business in future reporting periods.
